

7) Draw a UML diagram for online purchasing system. Provide top level use cases for a web customer making purchases online. Web customer actor uses some web site to make purchases online. Top level use cases are View Items, Make Purchase and Client Register.

AIM :- To design a **Use Case Diagram** for an **Online Purchasing System** that models how a web customer interacts with the system to browse products, register as a client, and make purchases.

Procedure : -

Identify the Key Actor.

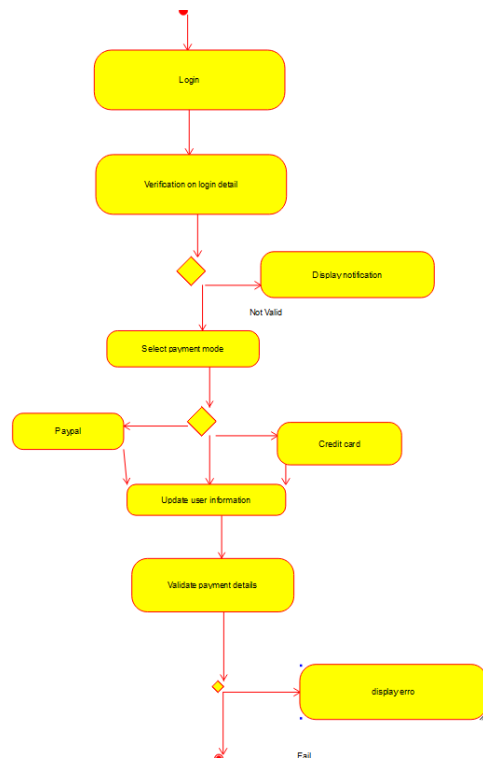

Define the Top-Level Use Cases.

Identify Supporting Use Cases.

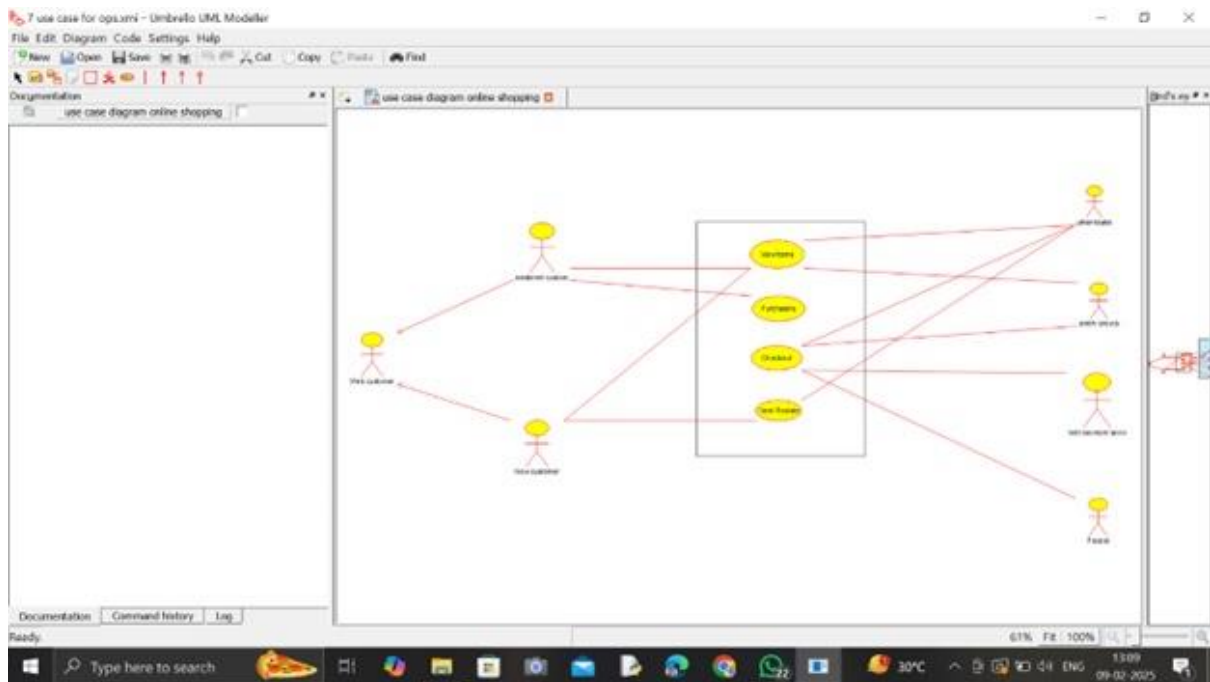

Draw the Use Case Diagram.

Label and Verify the Diagram.

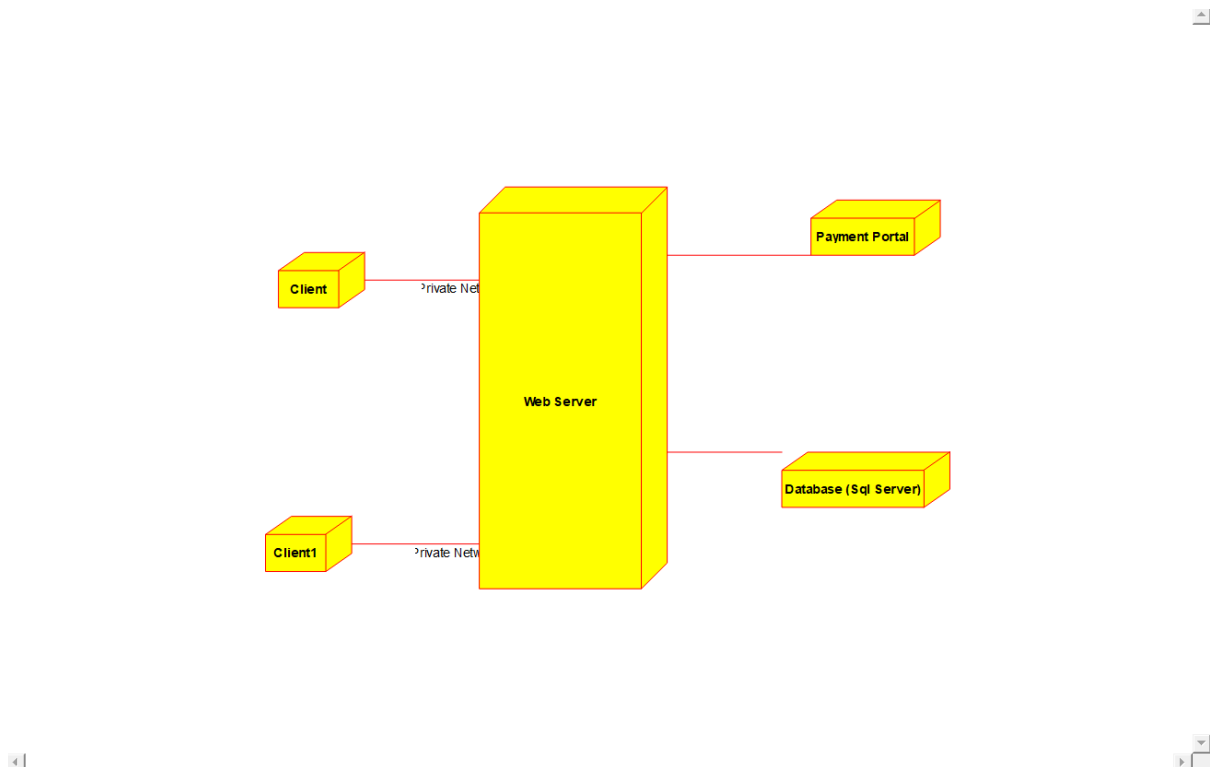

ACTIVITY DIAGRAM :-

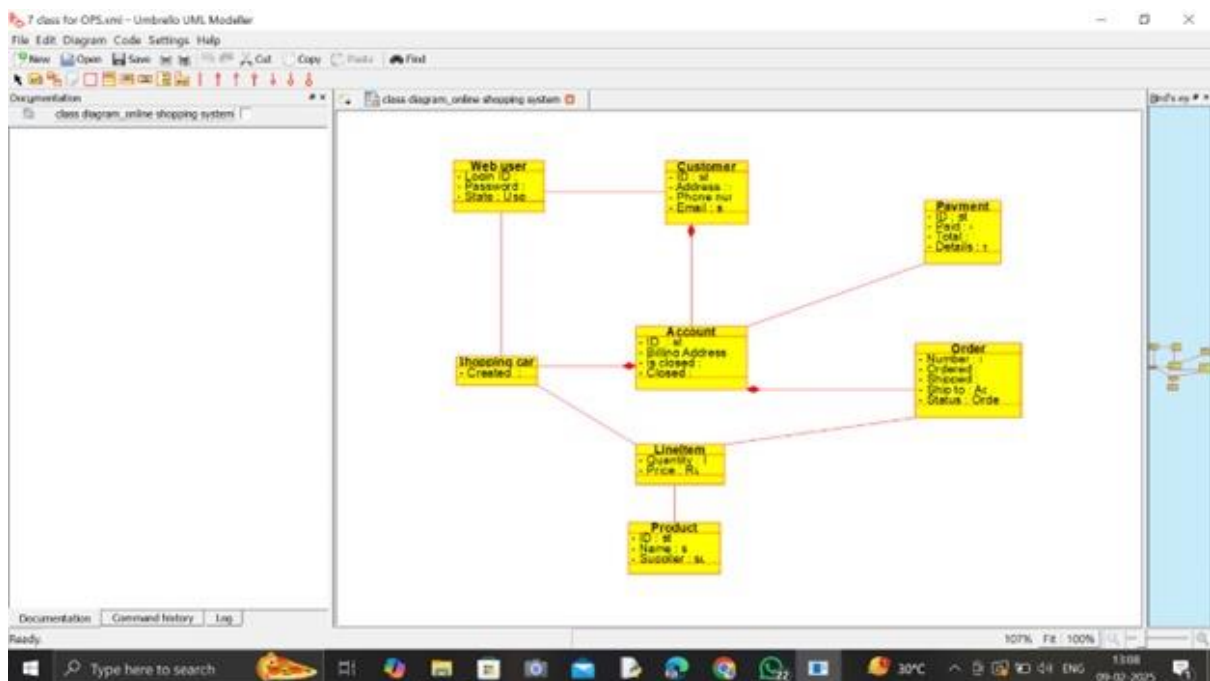

USE CASE DIAGRAM :-

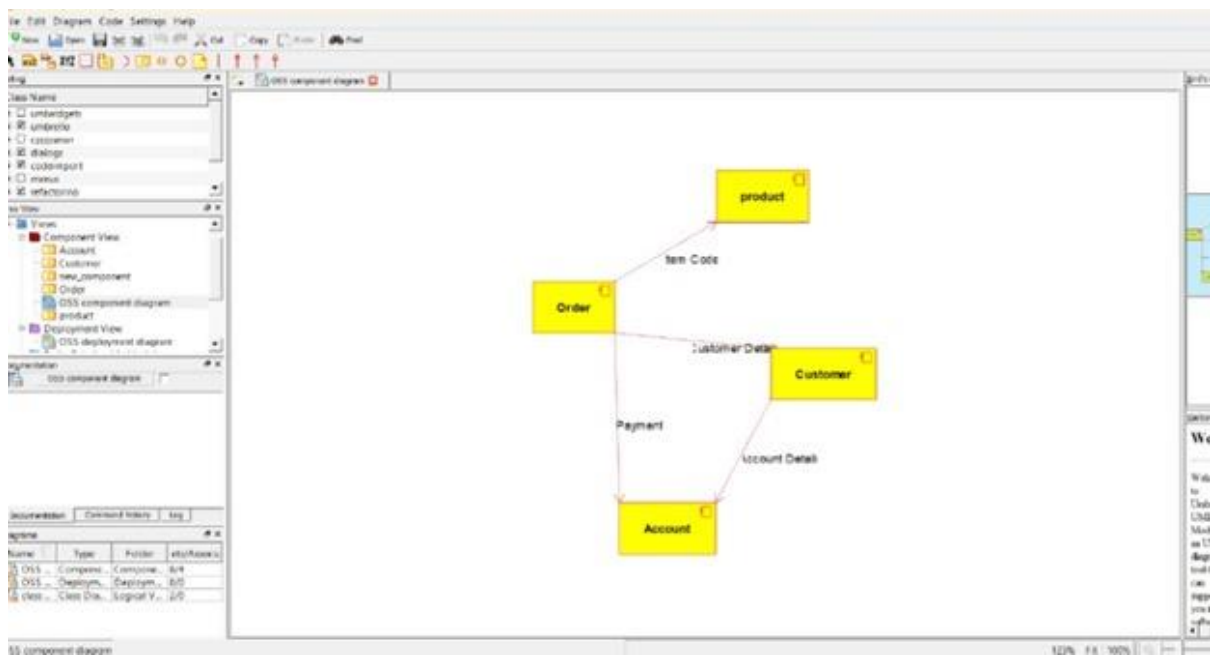

DEPLOYMENT DIAGRAM :-

CLASS DIAGRAM :-

COMPONENT DIAGRAM :-

RESULT :-

The Use Case Diagram for the Online Purchasing System was successfully designed, illustrating:

1. **Web Customer interactions**, such as browsing items, registering, and making purchases.

2. **System functionalities**, including search, add to cart, checkout, and payment processing.
3. **Key processes** that support a smooth online shopping experience.
